SPRINT 3 REPORT

Shama Anjum S
Rynixsoft Hybrid Internship

Project: Intern Performance Analytics & Insights Dashboard

Sprint 3 – KPI Definition & Dashboard Development

---

1. Introduction

In Sprint 3, the focus was on defining key performance indicators (KPIs) and developing an interactive dashboard to analyze intern performance.The goal was to convert raw data into meaningful insights that support better decision-making.

---

2. Objectives

• Define key KPIs to measure intern performance

• Build an interactive dashboard

• Improve usability with filters and visuals

• Identify at-risk interns and top performers

---

3. KPIs used

The following KPIs were used in the dashboard:

•Total Interns – to understand overall scale

• Placement Rate (%) – to measure outcomes

• At-Risk Interns (%) – to identify potential issues

• High Performers (%) – to track top talent

• Productivity Score – to evaluate performance

• Attendance (%) – to measure consistency

---

4. Dashboard Development

An interactive dashboard was developed using Power BI.

The dashboard includes multiple pages such as:

• Overview

• Department Analysis

• Top Performers

• At-Risk Interns

• Candidate Profile

Filters like department, month, and performance level

were added to improve interactivity and usability.

---

5. Key Features

• Dynamic filters for better analysis

• KPI cards for quick insights

• Department-wise performance comparison

• Identification of at-risk interns

• Ranking of top performers

---

6. Key Insights

• A significant number of interns fall under the at-risk category

• Placement rate is relatively low compared to total interns

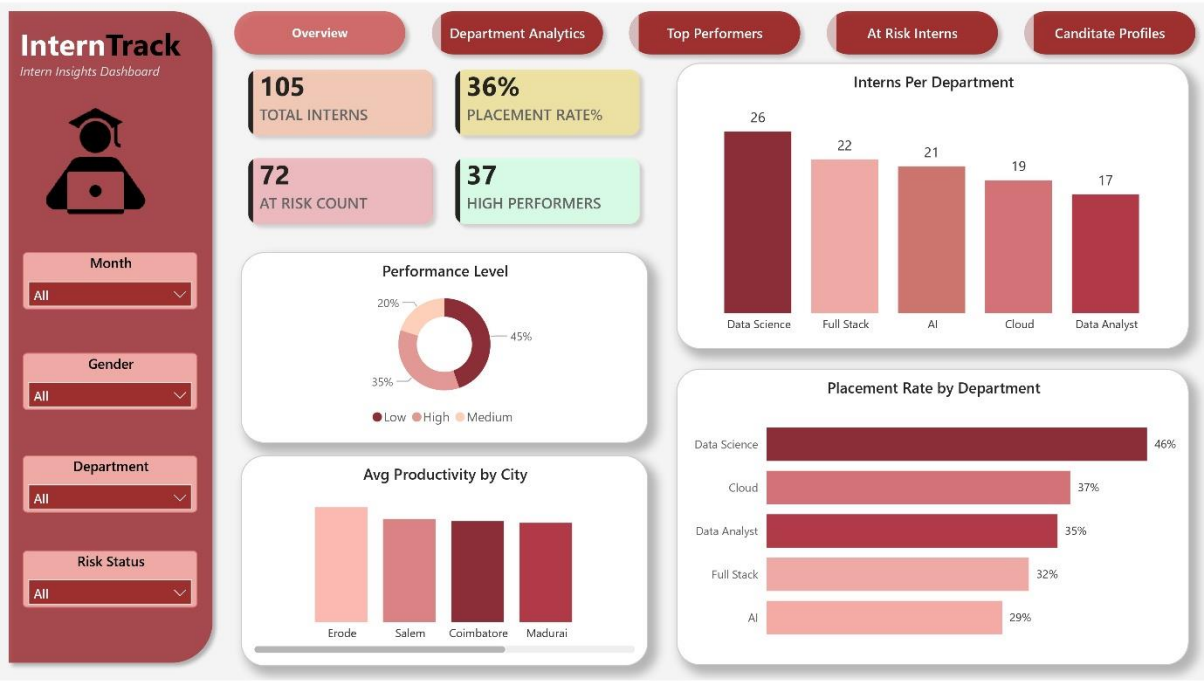
• Performance varies across departments

• High productivity does not always indicate high performance

• Attendance and task completion impact overall performance

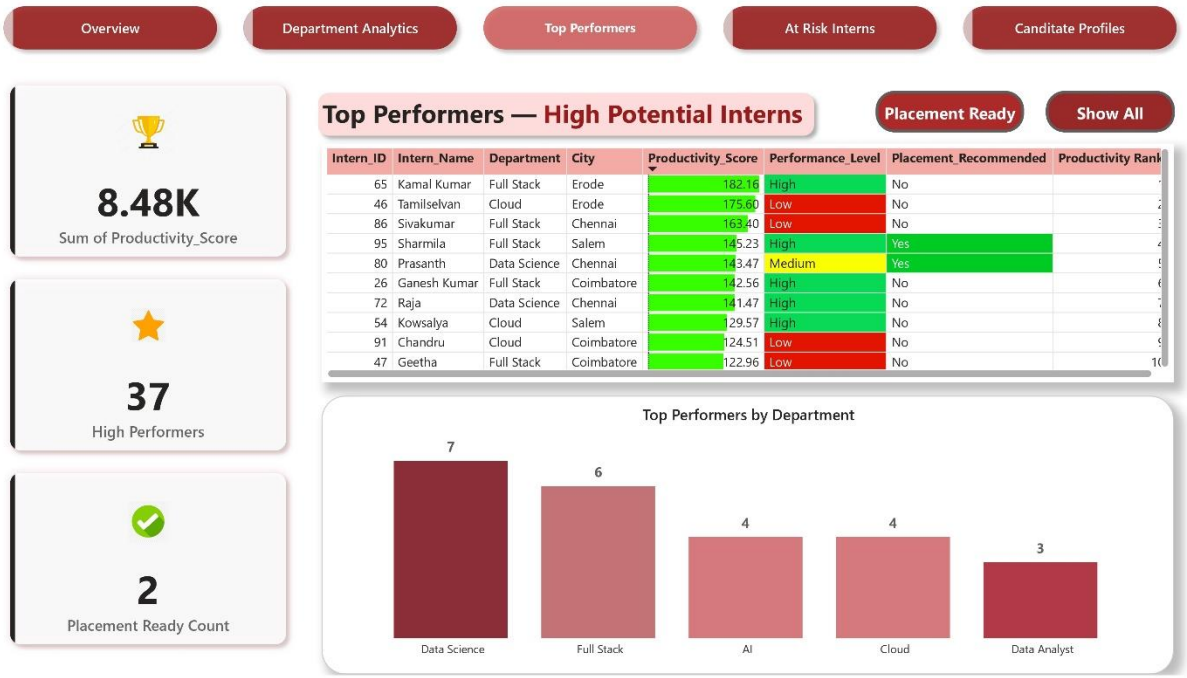
---

7. Final Output

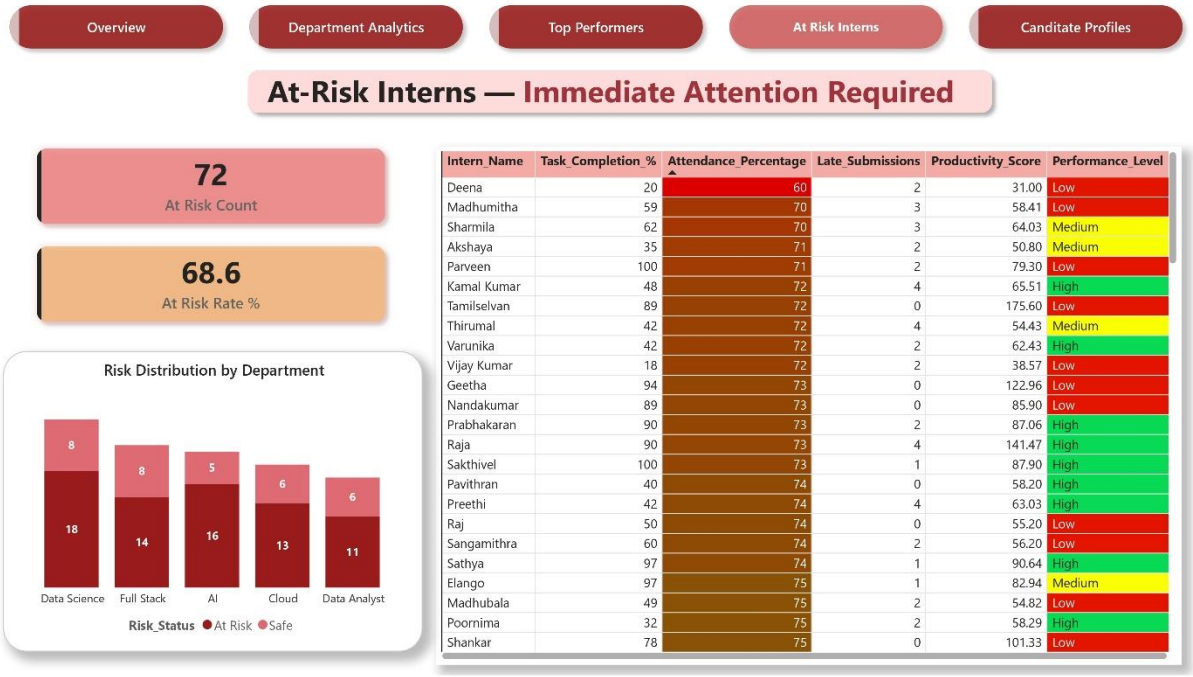


OVERVIEW PAGE

DEPARTMENT ANALYTICS



TOP PERFORMERS



AT RISK INTERNS

Intern_Name	Department	City	Internship_Mode	Attendance (%)	Task_Completion (%)	Performance_Level	Risk_Status	Placement_Recommended
Abinaya	Data Science	Chennai	Hybrid	98	70	Low	At Risk	No
Abinaya	Full Stack	Chennai	Onsite	93	36	Low	At Risk	No
Abishan	Full Stack	Coimbatore	Hybrid	95	53	High	At Risk	No
Aishu	AI	Erode	Onsite	99	98	Medium	Safe	No
Aishwarya	Data Science	Trichy	Onsite	89	86	Medium	Safe	Yes
Ajith	Full Stack	Coimbatore	Remote	95	47	High	At Risk	No
Akshaya	Data Science	Salem	Remote	71	35	Medium	At Risk	No
Anitha	Cloud	Trichy	Remote	94	63	Medium	Safe	No
Anitha	Data Science	Chennai	Onsite	92	44	Low	At Risk	No
Anupriya	Full Stack	Salem	Onsite	88	71	Low	At Risk	Yes
Aravind	AI	Chennai	Hybrid	83	46	Low	At Risk	No
Arun	Cloud	Salem	Onsite	90	90	High	Safe	Yes
Bala	AI	Chennai	Onsite	94	29	Medium	At Risk	No
Balaji	Data Analyst	Chennai	Remote	84	86	Medium	Safe	No
Bharath Kumar	AI	Coimbatore	Hybrid	80	13	High	At Risk	No
Chandru	Cloud	Coimbatore	Remote	94	84	Low	At Risk	No
Deena	AI	Salem	Hybrid	60	20	Low	At Risk	No

Divith	Full Stack	Erode	Hybrid	98	70	Low	At Risk	No
Elango	Full Stack	Salem	Remote	75	97	Medium	Safe	No
Ganesh Kumar	Full Stack	Coimbatore	Hybrid	99	90	High	Safe	No

CANDIDATE PROFILE

---

9. Conclusion

Sprint 3 successfully transformed data into an interactive dashboard.The dashboard helps in identifying performance gaps,tracking intern progress, and supporting better decision-making.
